REP then Pathways Ambassador (awarded Aug 2016)
Positive Promotion Program (2014) - CLUB

Relevant work experience and how it relates to Toastmasters and your role as a District leader:

I've led and been part of high performance teams since graduating in 1984. These experiences spread across the UK, Australia and New Zealand, from city/county government councils to meat processing plants, from the Congestion Charging Scheme in London to Retirement Villages in rural Gippsland. A district leader needs experience across organisational change and working with an eclectic group of professionals in order to help achieve the goals set out for success and to create value for our members.

What experience do you have in strategic planning?

Multiple roles have required understanding and prioritising objectives of those organisations, and the delivering on those plans - these include as Technical Design Authority for a business services organisation, greensite planning of a meat processing plant, taking a business model from one country to another and CEO (acting) retirement village.

What experience do you have in the area of finance?

Finance Team Lead at Gippsland Grammar, various Head of roles and CEO (acting) of a retirement Village. Managing budgets and finance across three countrys and delivering as Head of Managed Services for a data analytics company.

What experience do you have in developing procedures?

I'm a business analyst by profession. Studying as is and to be processes together with data analytics. I've helped multiple organisations realise increased efficiency and more so quality and faith in what they are doing. From councils to private IT organisations, from Banks to Religious Institutions...

What lessons did you learn from previous leadership positions?

The ability to lead is earned. Decisions are made with a blend of our heads, hearts and guts - being a leader means understanding who needs what to achieve the agreed vision and goals. Whether that be data, time or space !

Why do you want to serve as a District leader?

Toastmasters has helped me grow and to start to realise how I can help myself and others. I want to be the best version of myself and to help others achieve beyond their own expectations. I believe being a District leader presents an amazing opportunity to help the values and missional objectives of Toastmasters.

In your opinion, what are the District mission's major objectives and how would you work to achieve them?

The stated mission we all know, build new clubs and support clubs in achieving excellence. However you slice and dice the words, you always end up back at the member, getting them to join, getting them to stay. EVERYTHING stems from the member experience and we need to make sure that every meeting, every event, is the best it can be.

Additional information about yourself:

I am politically pragmatic, religiously ecumenical and family always comes first. I beleive that when you do something you need to do it to the best of your ability. I believe that integrity is the cornerstone to living up to what burns within us all, that balance of values, emotion and competency. Mixing these in equal measure makes us the best version of us we can be...
